# **SAFETY DATA SHEET**

# **CARBOGRIND 280**

SECTION 1: Identification o	of the substance/mixture and of the company/undertaking
1.1 Product identifier	
Product name	: CARBOGRIND 280
EC number	: Not available.
CAS number	: Not available.
Product category(ies)	: Grinding.
Product description	: Not available.
Product type	: Solid.
Other means of identification	: Ceramic Grinding Media; Semi-Crystalline Alumina Silicate; Sintered Kaolinite.
1.2 Relevant identified uses	of the substance or mixture and uses advised against
Grinding media.	
1.3 Details of the supplier of	the safety data sheet
Supplier	
CARBO Ceramics Inc.	
575 N. Dairy Ashford Road, Suite	2 300
Houston, Texas 77079, USA	
E-mail address of person responsible for this SDS	: productstewardship@carboceramics.com
1.4 Emergency telephone nu	mber
Supplier information	: For Chemical Emergency
(with hours of operation)	Spill, Leak, Fire, Exposure, or Accident
	Call CHEMTREC Day or Night
	+1 202-366-4488 (outside the USA)
SECTION 2: Hazards identif	lication
2.1 Classification of the subs	tance or mixture
Product definition	: Mono-constituent substance
<b>Classification according to Regu</b>	llation (EC) No. 1272/2008 [CLP/GHS]
Not classified.	
The product is not classified as h	nazardous according to Regulation (EC) 1272/2008 as amended.
See Section 11 for more detailed	d information on health effects and symptoms.
2.2 Label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazardous ingredients	: CARBOGRIND 280
	Ceramic materials and wares, chemicals

Supplemental label elements : Not applicable.

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 CARBOGRIND 280

SECTION 2: Hazards identification
-----------------------------------

Annex XVII - Restrictions on the	:	Not applicable.
manufacture, placing on the		
market and use of certain		
dangerous substances, mixtures		
and articles		
Special packaging requirements		
Containers to be fitted with	:	Not applicable.
child-resistant fastenings		
Tactile warning of danger	:	Not applicable.

2.3 Other hazards							
Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII	: PBT	Ρ	В	Т	vPvB	vP	vB
	Not applical (Inorgai		N/A	N/A	Not applicab (Inorgan		N/A
Other hazards which do not	: None ki	nown.					

result in classification

### SECTION 3: Composition/information on ingredients

#### 3.1 Substances

Substances

: Mono-constituent substance

3.2 Mixtures						
Mixtures	: Mono-constituent substance					
Product/ingredient name	Identifiers	%	Regulation (EC) No. 1272/2008 [CLP]	Туре		
Ceramic materials and wares, chemicals	EC: 266-340-9 CAS: 66402-68-4	95 - 100	Not classified.	[A]		

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

Туре

[A] Constituent

[B] Impurity

[C] Stabilizing additive

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures				
4.1 Description of first aid measures				
Substances	: Mono-constituent substance			
Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.			
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.			
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.			
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.			
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.			

4.2 Most important symptoms and effects, both acute and delayed				
<u>Over-exposure signs/sympto</u> Eye contact	ems : No specific da	ata.		
Date of issue/Date of revision	: 1/28/2020	Date of previous issue : 12/12/2019	Version : 4	2/10

SECTION 4: First aid measur		
Inhalation	No specific data.	
Skin contact	No specific data.	
Ingestion	No specific data.	
4.3 Indication of any immedia	nedical attention and special treatment needed	
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large have been ingested or inhaled.	quantities
Specific treatments	No specific treatment.	
SECTION 5: Firefighting mea	es	
5.1 Extinguishing media		
Suitable extinguishing media	Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	None known.	
5.2 Special hazards arising fro	he substance or mixture	
Hazards from the substance or	No specific fire or explosion hazard.	
mixture		
Hazardous combustion products	Decomposition products may include the following materials: metal oxide/oxides	
5.3 Advice for firefighters		
Special protective actions for	Promptly isolate the scene by removing all persons from the vicinity of the incide	nt if there
fire-fighters	is a fire. No action shall be taken involving any personal risk or without suitable t	raining.
Special protective equipment for fire-fighters	Fire-fighters should wear appropriate protective equipment and self-contained b apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clot	-
	fire-fighters (including helmets, protective boots and gloves) conforming to Europ	
	standard EN 469 will provide a basic level of protection for chemical incidents.	
SECTION 6: Accidental relea	measures	
6.1 Personal precautions, prot	ive equipment and emergency procedures	
Suitable extinguishing media	Use an extinguishing agent suitable for the surrounding fire.	
		Evacuate
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training.	
For non-emergency personnel	surrounding areas. Keep unnecessary and unprotected personnel from entering.	Do not

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

SECTION 7: Handling and storage			
7.1 Precautions for safe handling			
Protective measures	:	Put on appropriate personal protective equipment (see Section 8).	
Advice on general occupational	:	Eating, drinking and smoking should be prohibited in areas where this material is handled,	
hygiene		stored and processed. Workers should wash hands and face before eating, drinking and	
		smoking. Remove contaminated clothing and protective equipment before entering eating	
		areas. See also Section 8 for additional information on hygiene measures.	

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and wellventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)	
Recommendations	: Not available.
Industrial sector specific solutions	: Not available.
SECTION 8: Exposure cor	ntrols/personal protection
	n contains generic advice and guidance. Information is provided based on typical anticipated uses easures might be required for bulk handling or other uses that could significantly increase worker eleases.

#### 8.1 Control parameters

Occupational exposure limits

No exposure limit value known.

Recommended monitoring procedures	: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation
	or other control measures and/or the necessity to use respiratory protective equipment.
	Reference should be made to monitoring standards, such as the following: European
	Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by
	inhalation to chemical agents for comparison with limit values and measurement strategy)
	European Standard EN 14042 (Workplace atmospheres - Guide for the application and use
	of procedures for the assessment of exposure to chemical and biological agents) European
	Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance
	documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

No DNELs/DMELs available. <u>PNECs</u> No PNECs available.

8.2 Exposure controls	
Appropriate engineering controls	: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Individual protection measures	
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Date of issue/Date of revision	: 1/28/2020 Date of previous issue : 12/12/2019 Version : 4 4/10

CARBOGRIND 280	
SECTION 8: Exposure cor	ntrols/personal protection
Skin protection	
Hand protection	<ul> <li>Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.</li> </ul>
Body protection	<ul> <li>Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Other skin protection	<ul> <li>Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and che	emical properties
9.1 Information on basic phys	sical and chemical properties
Appearance	
Physical state	: Solid. [Solid spheres.]
Color	: Light gray to light tan.
Odor	: Odorless.
Odor threshold	: Not applicable.
рН	: Not applicable.
Melting point/freezing point	: 2204.5°C
Initial boiling point and boiling	: Not available.
range	
Flash point	: Not available.
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
Upper/lower flammability or	: Not available.
explosive limits	
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density (water = 1)	: ≥2.8
Solubility(ies)	: Not available.
Partition coefficient: n-octanol/	: Not available.
water	
Bulk density (g/cm3)	: 1.67 g/cm <sup>3</sup>
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: Not available.
Explosive properties	: Not available.
Oxidizing properties	: Not available.

9.2 Other information

Solubility in water

: Not applicable.

#### Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 CARBOGRIND 280

CARBOGRIND 280	
SECTION 10: Stability and	reactivity
10.1 Reactivity	
Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical stability	
Chemical stability	: The product is stable.
10.3 Possibility of hazardou	s reactions
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
10.4 Conditions to avoid	
Conditions to avoid	: No specific data.
10.5 Incompatible materials	5
Incompatible materials	: No specific data.
10.6 Hazardous decomposit	ion products
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

#### SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods			
Product			
Methods of disposal	The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.		

SECTION 13: Disposal considerations			
Hazardous waste	: Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.		
Packaging			
Methods of disposal	<ul> <li>The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.</li> </ul>		
Special precautions	: This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.		

SECTION 14: Transport information				
	ADR/RID	ADN	IMDG	ΙΑΤΑ
14.1 UN number	Not available.	Not available.	Not available.	Not available.
14.2 UN proper shipping name	Not available.	Not available.	Not available.	Not available.
