

**SAFETY DATA SHEET** 

# **CARBOGRIND XT 360**

Section 1. Identification						
GHS product identifier	: CARBOGRIND XT 360					
Product category(ies)	: Grinding.					
Other means of identification	Ceramic Grinding Media; Semi-Crystalline Alumina Silicate; Sintered Alumina.					
Product type	: Solid.					
Relevant identified uses of the s Grinding media.	ubstance or mixture and uses advised against					
Supplier's details	CARBO Ceramics Inc. 575 N. Dairy Ashford Road, Suite 300 Houston, Texas 77079, USA 1-800-551-3247					
Emergency telephone number (with hours of operation)	: For Chemical Emergency Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night Within USA and Canada: 1-800-424-9300					
Section 2. Hazards identific	ation					
OSHA/HCS status	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.					
Classification of the substance or mixture	: Not classified.					
GHS label elements						
Signal word	: No signal word.					
Hazard statements	: No known significant effects or critical hazards.					
Precautionary statements						
Prevention	: Not applicable.					
Response	: Not applicable.					
Storage	: Not applicable.					
Disposal	: Not applicable.					
Hazards not otherwise classified	: None known.					
Section 3. Composition/infe	ormation on ingredients					
Substance/mixture	: Article.					
CAS number/other identifiers						
1. n.						

Ingredient name	%	CAS number
Ceramic materials and wares, chemicals	95 - 100	66402-68-4

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

<b>Description of necessar</b>	y first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effects		-
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.
Over-exposure signs/symptoms		
Eye contact	:	No specific data.
Inhalation	:	No specific data.
Skin contact	:	No specific data.
Ingestion	:	No specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.	
Specific treatments	: No specific treatment.	
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.	

#### See toxicological information (Section 11)

Section 5. Fire-fighting measures					
Extinguishing media Suitable extinguishing media Unsuitable extinguishing media	<ul><li>Use an extinguishing agent suitable for the surrounding fire.</li><li>None known.</li></ul>				
Specific hazards arising from the chemical Hazardous thermal decomposition products	<ul> <li>No specific fire or explosion hazard.</li> <li>Decomposition products may include the following materials: metal oxide/oxides</li> </ul>				
Special protective actions for fire-fighters Special protective equipment for fire-fighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</li> <li>Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.</li> </ul>				
Section 6. Accidental releas	e measures				
	equipment and emergency procedures				
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate				

surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
 For emergency responders

 If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency."

2/8

CARBOGRIND XT 360					
Section 6. Accidental relea	se measures				
Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, sewers. Inform the relevant authorities if the product has caused environment (sewers, waterways, soil or air).					
Methods and materials for cont	ainment and cleaning up				
Small spill	: Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.				
Large spill	: Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.				
Section 7. Handling and sto	prage				
Precautions for safe handling					
Protective measures	: Put on appropriate personal protective equipment (see Section 8).				
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.				
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.				

#### Section 8. Exposure controls/personal protection

### **Control parameters**

# Occupational exposure limits

	Ingredient name			Exposure limits		
	Ceramic materials and wares, ch	nen	nicals	Ν	lone.	
Appropriate engineering controls: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure the comply with the requirements of environmental protection legislation. In some cases, fi scrubbers, filters or engineering modifications to the process equipment will be necessa reduce emissions to acceptable levels.					quipment should be checked to ensure they tal protection legislation. In some cases, fume	
	ndividual protection measures Hygiene measures	:	smoking and using the lavatory and at the e should be used to remove potentially contained.	eno Im	ter handling chemical products, before eating, d of the working period. Appropriate techniques inated clothing. Wash contaminated clothing and safety showers are close to the workstation	
	Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.			
	Skin protection					
	Hand protection	:	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.			
	Body protection	:	· · · · · · · · · · · · · · · · · · ·		hould be selected based on the task being be approved by a specialist before handling this	

CARBOGRIND XT 360							
Section 8. Exposure controls	s/personal protection						
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.						
Respiratory protection	<ul> <li>Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.</li> </ul>						
Section 9. Physical and chen							
Appearance							
Physical state	: Solid. [Solid spheres.]						
Color	: Bright white to off white.						
Odor	: Odorless.						
Odor threshold	: Not applicable.						
рН	: Not applicable.						
Melting point	: 2204.5°C (4000.1°F)						
Boiling point	: Not available.						
Flash point	: Not available.						
Evaporation rate	: Not available.						
Flammability (solid, gas)	: Not available.						
Lower and upper explosive	: Not available.						
(flammable) limits	: Not available.						
Vapor pressure Vapor density	: Not available.						
Relative density							
Solubility	: ≥3.6 : Not available.						
Solubility in water	Not available.						
Partition coefficient: n-octanol/	Not available.						
water							
Auto-ignition temperature	: Not available.						
Decomposition temperature	: Not available.						
Viscosity	: Not available.						
Flow time (ISO 2431)	: Not available.						
Section 10. Stability and rea	ctivity						
Reactivity	: Not considered to be reactive.						
Chemical stability	: The product is stable.						
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.						
Conditions to avoid	: No specific data.						
Incompatible materials	: Strong oxidizer						
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.						
Section 11. Toxicological inf	ormation						
Information on toxicological effe Acute toxicity	<u>cts</u>						
Not available. Irritation/Corrosion							
Not available.							
<u>Sensitization</u> Not available.

Soil/water partition	: Not available.
coefficient (Koc)	

#### Other adverse effects

#### : No known significant effects or critical hazards.

# Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information						
	DOT Classification	TDG Classification	Mexico Classification	IMDG	ΙΑΤΑ

## Section 16. Other information

### Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc. The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
