# **SAFETY DATA SHEET**

## **CARBOGRIND ZIRPLUS 340**

Section 1. Identification						
GHS product identifier	: CARBOGRIND ZIRPLUS 340					
Product category(ies)	: Grinding.					
Other means of identification	: Ceramic Grinding Media; Sintered Alur	nina Zirconia.				
Product type	: Solid.					
Relevant identified uses of the s Grinding media.	ubstance or mixture and uses advised agai	nst				
Supplier's details	: CARBO Ceramics Inc. 5050 Westway Park Blvd, Suite 150 Houston, Texas 77041, USA 1-800-551-3247					
Emergency telephone number (with hours of operation)	: For Chemical Emergency Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night Within USA and Canada: 1-800-424-93	00				
Section 2. Hazards identific	ation					
OSHA/HCS status Classification of the substance or mixture	<ul> <li>While this material is not considered h (29 CFR 1910.1200), this SDS contains proper use of the product. This SDS sh users of this product.</li> <li>Not classified.</li> </ul>	valuable information critic	al to the safe handling and			
<u>GHS label elements</u>						
Signal word	: No signal word.					
Hazard statements	: No known significant effects or critical hazards.					
Precautionary statements	. Net evelopite					
Prevention	: Not applicable.					
Response	<ul><li>Not applicable.</li><li>Not applicable.</li></ul>					
Storage Disposal	: Not applicable.					
Hazards not otherwise	: Not applicable. : None known.					
classified	. Wohe kilowii.					
Section 3. Composition/inf	ormation on ingredients					
Substance/mixture	: Article.					
CAS number/other identifiers						
Ingredient name		%	CAS number			
Ceramic materials and wares, ch	iemicals	95 - 100	66402-68-4			
Any concentration shown as a ra	nge is to protect confidentiality or is due to	batch variation.				

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

#### **Description of necessary first aid measures**

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids.</li> <li>Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### Most important symptoms/effects, acute and delayed

Potential acute health effects		
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.
Over-exposure signs/symptoms		
Eye contact	:	No specific data.
Inhalation	:	No specific data.
Skin contact	:	No specific data.
Ingestion	:	No specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

Section 5. Fire-fighting measures					
Extinguishing media Suitable extinguishing media Unsuitable extinguishing media	<ul><li>Use an extinguishing agent suitable for the surrounding fire.</li><li>None known.</li></ul>				
Specific hazards arising from the chemical	: No specific fire or explosion hazard.				
Hazardous thermal decomposition products	: Decomposition products may include the following materials: metal oxide/oxides				
Special protective actions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.				
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.				
Section 6. Accidental release measures					

#### **Personal precautions, protective equipment and emergency procedures For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate

For non-emergency personner	. No action shall be taken involving any personal risk of without suitable training. Evacuate
	surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch
	or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in
	Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency
	personnel".

CARBOGRIND ZIRPLUS 340					
Section 6. Accidental releas	e measures				
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).				
Methods and materials for cont	ainment and cleaning up				
Small spill	labeled waste container. Dispose of via a li	•			
Large spill	confined areas. Vacuum or sweep up mate	ntry into sewers, water courses, basements or crial and place in a designated, labeled waste disposal contractor. Note: see Section 1 for n 13 for waste disposal.			
Section 7. Handling and sto	rage				
Precautions for safe handling					
Protective measures	: Put on appropriate personal protective equ	uipment (see Section 8).			
Advice on general occupational hygiene	stored and processed. Workers should was	phibited in areas where this material is handled, sh hands and face before eating, drinking and nd protective equipment before entering eating prmation on hygiene measures.			
Conditions for safe storage, including any incompatibilities	10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.				
Section 8. Exposure control	s/personal protection				
Control parameters					
Occupational exposure limits					
Ingredient name		Exposure limits			

-						
Proprietary Micro Media		None.				
Appropriate engineering controls	: Good general ventilation should be sufficien contaminants.					
Environmental exposure controls	comply with the requirements of environm	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.				
Individual protection measures						
Hygiene measures	smoking and using the lavatory and at the e should be used to remove potentially conta	after handling chemical products, before eating, and of the working period. Appropriate techniques iminated clothing. Wash contaminated clothing ns and safety showers are close to the workstation				
Eye/face protection	indicates this is necessary to avoid exposure	d standard should be used when a risk assessment e to liquid splashes, mists, gases or dusts. If contact be worn, unless the assessment indicates a higher de-shields.				
Skin protection						
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.					
Body protection		y should be selected based on the task being d be approved by a specialist before handling this				

CARBOGRIND ZIRPLUS 340	
Section 8. Exposure control	s/personal protection
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before
	handling this product.
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate
	standard or certification. Respirators must be used according to a respiratory protection
	program to ensure proper fitting, training, and other important aspects of use.
Section 9. Physical and cher	nical properties
Appearance	
Physical state	: Solid. [Solid spheres.]
Color	: Grayish-white.
Odor	: Odorless.
Odor threshold	: Not applicable.
рН	: Not applicable.
Melting point	: 2204.5°C (4000.1°F)
Boiling point	: Not available.
Flash point	: Not applicable.
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not applicable.
Vapor pressure	: Not available.
Vapor density	: Not applicable.
Relative density	: ≥3.3
Solubility	: Not available.
Solubility in water	: Not applicable.
Partition coefficient: n-octanol/	: Not applicable.
water	
Auto-ignition temperature	: Not applicable.
Decomposition temperature	: Not available.
Viscosity	: Not applicable.
Flow time (ISO 2431)	: Not available.
Section 10. Stability and rea	ctivity
Reactivity	: Not considered to be reactive.
Chemical stability	: The product is stable.
Possibility of hazardous	: Under normal conditions of storage and use, hazardous reactions will not occur.
reactions	
Conditions to avoid	: No specific data.
Incompatible materials	: Strong oxidizer
Hazardous decomposition	: Under normal conditions of storage and use, hazardous decomposition products should not be
products	produced.
Section 11. Toxicological inf	ormation
Information on toxicological effe	<u>ccts</u>
Acute toxicity	
Not available.	
Irritation/Corrosion	
Not available.	
Sensitization	
Not available.	
Mutagenicity	
Not available.	
Carcinogenicity

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

#### Section 16. Other information

#### Hazardous Material Information System (U.S.A.)

Caution: HMIS<sup>®</sup> ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS<sup>®</sup> ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS<sup>®</sup> ratings are to be used with a fully implemented HMIS<sup>®</sup> program. HMIS<sup>®</sup> is a registered trademark and service mark of the American Coatings Association, Inc. The customer is responsible for determining the PPE code for this material. For more information on HMIS<sup>®</sup> Personal Protective Equipment (PPE) codes, consult the HMIS<sup>®</sup> Implementation Manual.
