

CARBOGRIND ZIRPLUS 380

Section 1. Identification						
GHS product identifier	: CARBOGRIND ZIRPLUS 380					
Product category(ies)	: Grinding.					
Other means of identification	: Ceramic Grinding Media; Sintered Alumina Zirconia.					
Product type	: Solid.					
Relevant identified uses of the s Grinding media.	ubstance or mixture and uses advised against					
Supplier's details	: CARBO Ceramics Inc. 575 N. Dairy Ashford Road, Suite 300 Houston, Texas 77079, USA 1-800-551-3247					
Emergency telephone number	: For Chemical Emergency					
(with hours of operation)	Spill, Leak, Fire, Exposure, or Accident					
	Call CHEMTREC Day or Night					
	Within USA and Canada: 1-800-424-9300					
Section 2. Hazards identific	ation					
OSHA/HCS status Classification of the substance or mixture	 While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. Not classified. 					
ormixture						
GHS label elements						
Signal word	: No signal word.					
Hazard statements	: No known significant effects or critical hazards.					
Precautionary statements						
Prevention	: Not applicable.					
Response	: Not applicable.					
Storage	: Not applicable.					
Disposal	: Not applicable.					
Hazards not otherwise classified	: None known.					
Section 3. Composition/inf	ormation on ingredients					
Substance/mixture	: Article.					
CAS number/other identifiers						
In an all and many a	0/ CAS sumber					

Ingredient name	%	CAS number
Ceramic materials and wares, chemicals	95 - 100	66402-68-4

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description	of necessary	/ first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sy	<u>/mptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures				
Extinguishing media Suitable extinguishing media Unsuitable extinguishing media	Use an extinguishing agent suitable for the surrounding fire.None known.			
Specific hazards arising from the chemical Hazardous thermal decomposition products	 No specific fire or explosion hazard. Decomposition products may include the following materials: metal oxide/oxides 			
Special protective actions for fire-fighters Special protective equipment for fire-fighters	 Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. 			
Section 6. Accidental releas				
Personal precautions, protective	equipment and emergency procedures			

For non-emergency personnel		No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders		If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

CARBOGRIND ZIRPLUS 380				
Section 6. Accidental relea	se measures			
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).			
Methods and materials for cont	ainment and cleaning up			
Small spill Large spill	 Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Move containers from spill area. Prevent entry into sewers, water courses, basements or 			
Luige spin	confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.			
Section 7. Handling and sto	prage			
Precautions for safe handling				
Protective measures	: Put on appropriate personal protective equipment (see Section 8).			
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.			
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.			

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

	Ingredient name			Exposure limits			
	Ceramic materials and wares, ch	emicals		None.			
co Ei	ppropriate engineering ontrols nvironmental exposure ontrols	contami : Emissior comply s scrubber	Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.				
	ndividual protection measures Hygiene measures	smoking	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.				
		before r					
	Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.					
	Skin protection						
	Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.					
	Body protection	 Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

CARBOGRIND ZIRPLUS 380							
Section 8. Exposure control	ls/personal protection						
Other skin protection Respiratory protection	 Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. 						
Section 9. Physical and che							
Appearance							
Physical state	: Solid. [Solid spheres.]						
Color	: Light gray to light tan.						
Odor	: Odorless.						
Odor threshold	: Not applicable.						
рН	: Not applicable.						
Melting point	: 2204.5°C (4000.1°F)						
Boiling point	: Not available.						
Flash point	: Not available.						
Evaporation rate	: Not available.						
Flammability (solid, gas) Lower and upper explosive	Not available.Not available.						
(flammable) limits	: NOL AVAIIADIE.						
Vapor pressure	: Not available.						
Vapor density	: Not available.						
Relative density	: ≥3.75						
Solubility	: Not available.						
Solubility in water	: Not applicable.						
Partition coefficient: n-octanol/	: Not available.						
water							
Auto-ignition temperature	: Not available.						
Decomposition temperature	: Not available.						
Viscosity Flow time (ISO 2431)	: Not available. : Not available.						
Section 10. Stability and rea							
Reactivity	: Not considered to be reactive.						
Chemical stability	: The product is stable.						
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.						
Conditions to avoid	: No specific data.						
Incompatible materials	: Strong oxidizer						
Hazardous decomposition	: Under normal conditions of storage and use, hazardous decomposition products should not be						
products	produced.						
Section 11. Toxicological in	formation						
Information on toxicological effe	<u>ects</u>						
Acute toxicity							
Not available.							
Irritation/Corrosion							
Not available.							
<u>Sensitization</u> Not available.							
<u>Mutagenicity</u> Not available.							
Carcinogenicity							
Not available.

N/A

Section 12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition	: Not available.
coefficient (Koc)	

Other adverse effects

: No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information					
	DOT Classification	TDG Classification	Mexico Classification	IMDG	ΙΑΤΑ
UN number	Not available.	Not available.	Not available.	Not available.	Not available.
UN proper shipping name	Not available.	Not available.	Not available.	Not available.	Not available.
Transport hazard class(es)	Not available.	Not available.	Not available.	Not available.	Not available.
Packing group	-	-	-	-	-
Environmental hazards	No.	No.	No.	No.	No.

Special precautions for user

: **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to : Not available. IMO instruments

Viet Nam	: Not determined.

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc. The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS[®] Implementation Manual.
